

Dataset Status Summary — Urdu & Punjabi

For Prompt Repetition Research

URDU

✔ REAL DATASETS AVAILABLE (download and use directly)

Dataset	Items	Source	Link	Status
OpenBookQA Urdu	500	Traversaal AI (human validated)	https://huggingface.co/datasets/large-traversaal/openbookqa_urdu_final	✔ Live, download now
NameIndex-Urdu	50	We created natively (Urdu names)	Already in our compiled file	✔ Ready
MiddleMatch-Urdu	50	We created natively (Urdu names)	Already in our compiled file	✔ Ready
Script-Mixed-Urdu	10	We created natively	Already in our compiled file	✔ Ready

Total ready: ~610 items

✖ DATASETS THAT WERE AVAILABLE BUT NOW 404/PRIVATE

Dataset	Items	What happened	Action needed
MGSM Urdu (cleaned)	250	Was on HuggingFace Nov 2025, now 404	Email contact@traversaal.ai to request access
UrduBench (full: MGSM + MATH-500 + CommonSenseQA)	~1,971	Paper says "will be publicly released" but not released yet	Email UrduBench authors (check arXiv:2601.21000 for contacts)

 DATASETS THAT NEED TRANSLATION (English → Urdu)

If you can't get access to the above, translate these English sources:

Dataset	English Source	Items to Translate	Link to English Source
MGSM (math)	GSM8K 250 problems	250	https://huggingface.co/datasets/juletxara/mgsm (conf
ARC Challenge (science MCQs)	ARC Challenge	300 (subset)	https://huggingface.co/datasets/allenai/ai2_arc (config Challenge")
CommonSenseQA	CommonSenseQA	300 (subset)	https://huggingface.co/datasets/tau/commonsense_qa
MATH-500	MATH dataset	200 (subset)	https://huggingface.co/datasets/hendrycks/competitic

Translation method: Use GPT-4o to translate → then you (native Urdu speaker) review and fix → done. This is faster than handwriting since Urdu is your native language and GPT-4o translates Urdu well.

PUNJABI (Shahmukhi)

 REAL DATASETS AVAILABLE

Dataset	Items	Source	Status
GSM8K-Punjabi	50	YOUR handwritten translations (native Lahori Punjabi)	 Complete
ARC-Punjabi	30	YOUR handwritten translations	 Complete
NameIndex-Punjabi	50	We created natively (Shahmukhi names)	 Ready
MiddleMatch-Punjabi	50	We created natively (Shahmukhi names)	 Ready
CommonSenseQA-Punjabi	20	Machine-generated (needs your review)	 Needs review
Script-Mixed-Punjabi	10	We created natively	 Ready

Total ready: 210 items (80 human-translated + 130 natively created)

✗ NO REAL PUNJABI (SHAHMUKHI) BENCHMARKS EXIST ANYWHERE

- All existing Punjabi NLP datasets use Indian Gurmukhi script (LTR) — NOT usable for our RTL study
- Your 80 handwritten items ARE the first Shahmukhi Punjabi reasoning benchmark ever created
- This is a novel contribution for your paper

📁 DATASETS THAT NEED TRANSLATION (English → Shahmukhi Punjabi)

To scale up from 50 → 250 GSM8K and 30 → 300 ARC:

Dataset	English Source	Currently Done	Remaining	Link to English Source
MGSM (math)	GSM8K 250 problems	50 done (your handwriting)	200 more needed	https://huggingface.co/datasets/juleta/GSM8K (config: "en")
ARC Challenge	ARC Challenge	30 done (your handwriting)	270 more needed	https://huggingface.co/datasets/allenai/arc_challenge (config: "ARC-Challenge")
OpenBookQA	OpenBookQA	0 done	250 needed	https://huggingface.co/datasets/allenai/openbookqa
CommonSenseQA	CommonSenseQA	20 done (machine)	280 more needed	https://huggingface.co/datasets/tau/commonsenseqa

Translation method: Download English → GPT-4o translates to Urdu → YOU convert Urdu to Punjabi in notebook → photograph → I type. (Faster than English→Punjabi directly because GPT-4o doesn't know Shahmukhi Punjabi well, but Urdu→Punjabi is easy for you)

PRIORITY ACTION PLAN

Immediate (can start experiments NOW):

1. Download OpenBookQA Urdu (500 items) from the link above
2. Use our compiled Punjabi dataset (210 items)
3. Use our compiled Urdu dataset (210 items) + OpenBookQA (500)

4. Run prompt repetition experiments on these ~920 items

Short-term (1-2 weeks):

5. Email Traversaal AI (contact@traversaal.ai) requesting MGSM Urdu
6. Email UrduBench authors requesting full dataset access
7. Translate 200 more MGSM English → Punjabi (handwrite in notebook)

Medium-term (for final paper):

8. Scale Punjabi to 250 GSM8K + 300 ARC using the English sources above
9. Replace self-written Urdu data with official UrduBench when available
10. Add second native speaker validation for Punjabi translations

ENGLISH SOURCE DATASETS (for translation to any language)

These are the "gold standard" English benchmarks. Download these to translate into Punjabi/Urdu/others:

Dataset	Items	Download
MGSM English	250	https://huggingface.co/datasets/juletxara/mgsm
ARC Challenge	1,172	https://huggingface.co/datasets/allenai/ai2_arc
OpenBookQA	500	https://huggingface.co/datasets/allenai/openbookqa
CommonSenseQA	1,221	https://huggingface.co/datasets/tau/commonsense_qa
MATH-500	500	https://huggingface.co/datasets/hendrycks/competition_math
GSM8K (full)	8,500	https://huggingface.co/datasets/openai/gsm8k
